

Bangor Mar. 27. 1854.

Friend Garrison;

28

I am requested by the Mechanics Association of this City to invite you to lecture before it next Winter & to enquire on what terms you will come. It is expected that our Rail road will be completed or nearly so, by that time so that you can come thro' from Boston in a day easily.

We want you to come & say your say without let or hindrance, untrammelled by the restraints that usually surround Lyceum lectures. I really hope you will come; so do many others; will you not? Wendell Phillips & Lucy Stone were very well rec'd here.

Very Truf Yrs.

A. Battis.

To W^m Lloyd Garrison;
Boston.
